SHELTERS

MORE THAN A ROOF

AND FOUR WALLS.

FAMILY TENTS

Family tents are large enough for a family of 5 people to live in. Tents are designed to give temporary shelter to families in emergency situations, offering protection in harsh weather conditions (sun, sand, wind).

MULTIPURPOSE TENTS

Choose from our three model groups:

- XPERT tents
- HUB tents
- BASE tents

ACCESSORIES

Based on the demands and needs of our clients, we are able to supply case-specific relief-aid items that fall outside our general product range. Please contact us with your particular request and we will do our very best to provide you with our best possible option.

QUALITY . FLEXIBILITY . COMMITMENT

WE ARE COMMITTED TO OUR BENEFICIARIES. WE DELIVER PRODUCTS FOR RELIEF, HOPE AND COMFORT.

FAMILY TENTS

The family tents have optional inner liners to create interior compartments and increase privacy as desired. With a setup manual included, the tents are easy to set up.

ACCESSORIES

Choose from our wide variety:

BLANKETS

As well as these high-quality fleece blankets, we offer a number of other bedding-related items.

**LOW THERMAL FLEECE BLANKET / MEDIUM THERMAL FLEECE BLANKET
HIGH THERMAL POLYFILL BLANKET**

PLASTIC SHEETING

Distribution of plastic sheeting is one of the most common parts of emergency shelter provision. Providing poles with plastic sheeting can significantly reduce local environmental damage from many people cutting larger trees to create frames. Providing rope, nails, and other fastenings will help people to fix their sheeting more firmly, extending its use and durability. People may use basic materials to make structures to which they are more accustomed. Metal sheets are a more costly alternative to plastic sheeting and require more skill to use, but are more durable.

PLASTIC SHEETING 4x5m, 4x50m, 4x6m, 4x60m
